FTC Solar to Begin Deliveries on 80+MW Sybella Project in Australia

September 15, 2026

AUSTIN, Texas, Sept. 15, 2026 (GLOBE NEWSWIRE) -- FTC Solar, Inc. (Nasdaq: FTCI), a leading provider of solar tracker systems, software, and engineering services, announced today that it has received notice to begin production for the Sybella Creek Solar Farm in Queensland, Australia. First deliveries are approved to commence at the end of 2026 into early 2027.

Sybella Creek is a 82-megawatt hybrid solar and battery storage project being built in Mount Isa, Queensland, Australia. The project, which is being constructed utilizing FTC Solar's Voyager 2P tracker technology, is expected to support growth and improve energy security in Mount Isa.

"We're pleased to continue supporting our customers with this follow-on project and to build on the strong momentum we've established in Australia," said Anthony Carroll, CEO of FTC Solar. "Our focus has always been on delivering solutions that help our customers improve project efficiency, simplify installation and reduce costs. We look forward to continuing to provide the quality products, service and support our customers expect from FTC Solar, while further strengthening our presence in the Australian market."

Tracker production in support of this project is currently underway with deliveries slated for the end of 2026 into early 2027. The aggregate value of the project was included in the company's backlog disclosed on August 5, 2026.

About FTC Solar Inc.
Founded in 2017 by a group of renewable energy industry veterans, FTC Solar is a leading provider of solar tracker systems, technology, software, and engineering services. Solar trackers significantly increase energy production at solar power installations by dynamically optimizing solar panel orientation to the sun. FTC Solar's innovative tracker designs provide compelling performance and reliability, with an industry-leading installation cost-per-watt advantage.

Forward-Looking Statements
This press release contains forward looking statements. These statements are not historical facts but rather are based on our current expectations and projections regarding our business, operations and other factors relating thereto. Words such as "may," "will," "could," "would," "should," "anticipate," "predict," "potential," "continue," "expects," "intends," "plans," "projects," "believes," "estimates" and similar expressions are used to identify these forward-looking statements. These statements are only predictions and as such are not guarantees of future performance and involve risks, uncertainties and assumptions that are difficult to predict. In addition, this press release contains statements about third parties and their commercial activity. We have not independently verified or confirmed such statements and have instead relied on the veracity of information as provided to us by such third parties related to such statements. You should not rely on our forward-looking statements or statements related to third parties or their commercial activities as predictions of future events, as actual results may differ materially from those in the forward-looking statements or statements related to third parties or their commercial activities because of several factors, including those described in more detail above and in our filings with the U.S. Securities and Exchange Commission, including the section entitled "Risk Factors" contained therein. FTC Solar undertakes no duty or obligation to update any forward-looking statements or statements related to third parties or their commercial activities contained in this release as a result of new information, future events or changes in its expectations, except as required by law.
